PROFESSIONAL SUMMARY

Certified computer science undergraduate with expertise in building real-time projects that incorporate AI, driving innovative solutions to complex problems.

EDUCATION

EDUCATION

Btech computer science and engineering Sastra Deemed University 2023-2027

TECHNICAL SKILLS

Python, Sql, Java, Rust, Nlp, Fastapi, flask, Machine learning algorithms

LANGUAGES KNOWN

english, tamil, hindi

WORK EXPERIENCE

- Data Analyst Intern, Amazon

  - Worked with customer datasets to identify trends and insights

  - Created reports using Power BI to present findings and recommendations

PROJECTS

- EcoSmart Home Automation System

  - Designed and developed a smart home automation system focusing on energy efficiency and sustainability

  - Integrated IoT devices to monitor and control household appliances, lighting, and temperature

  - Implemented features for real-time energy consumption tracking, automated scheduling, and energy usage suggestions

  - Incorporated renewable energy sources, such as solar panels, for a greener approach

CERTIFICATIONS

• python for data science - udemy

EXTRACURRICULAR ACTIVITIES

Technical team lead, Photographer
